

PREMIUM FEATURES

Azuga Insight's Plug-In Device

Vehicle Health

Get valuable information about your vehicle's health. Now, when the Check Engine light goes on, you'll know why.

Trip Logs

View trip details such as trip miles driven, fuel consumed (est.), duration, and carbon footprint.

Driver Scoring

Receive feedback on how smoothly you drive. Driving factors that are scored: speeding, accelerating, braking and idling.

Carbon Footprint*

See how your vehicle is impacting the environment, how it stacks up against other vehicles, and how you can reduce your carbon output.

**Also available for non plug-in mileage reporting options.*

Additional Features Available With GPS-Enabled Device

Enhanced Visual Trip Logs

See where you have been by logging your trips. Trip logs show individual trips on a map, and these maps can be shared with others.

Safe Zones

Worry less when a family member, such as your teenager, has the car. Set up geographical zones and receive notifications when your car enters or exits these zones.

Achievements

See how well you drive, sharpen your skills, and earn badges for great driving. Compete with friends and family members to see who can unlock the most badges.

2MyCar

See where your vehicle is parked and how far away it is. Follow the recommended route to get to it.

Find It Forward

Find places—such as gas stations, restaurants, hospitals, and ATMs, near your current location, and in the direction you're already headed.
